

Let's Talk

You know that your friend is planning on having sex.
You want your friend to know that it is important to use a condom.

Directions:

In pairs, use what you've learned about assertive communication and condoms to complete this conversation.

YOU: "I want to talk to you about condoms. You are planning to use them, aren't you?"

YOUR FRIEND: "Who are you, the health police? I don't know...condoms interrupt the mood."
