

Spread of STIs Experiment: Worksheet

Section A

Consider the order of people who you had a 'sexual encounter' with and whether or not they had the STI:

Number of Students vaccinated

Day	25%		50%		75%	
1						
2						
3						
4						
5						
6						
7						

Section B

Consider the order of people who you had a 'sexual encounter' with and whether or not they had the STI:

Sexual encounter	Were they infected?
1	
2	

How many people in the class contracted the infection?

Did you contract the infection? _____

How many people in the class contracted the infection?

Did you contract the infection? _____

Why was there a reduction in the number of people who contracted the infection this time? _____

SW1 - Spread of STIs Test Tube Experiment Student Recording Sheet 2/2

Section C - Results

Sexual encounter	Were they infected?	Colour after	Reason for colour change
1			
2			
3			
4			

What does the cling film or cotton balls represent?

Can you think of any reasons why some of the people didn't get infected even though they had a sexual encounter with someone who had an STI?
